COMPANY SUMMARY

CCSI is a construction and contracting firm specializing in vertical commercial and residential construction projects. We have more than seven years of experience in building low, mid, and high rises as well as general consulting and advisory expertise. With project experience in Illinois and Indiana, our staff is mobile and are happy to serve clients in both the public and private sectors. Known for our lean production and timely deliverables, CCSI is the company of choice for government entities, private clients and large contractors.

We have significant experience working with local and state governments as well as universities, non-for-profits and private businesses. Our staff is not only experienced in construction, they are fluent in the needs of the end-users; combined, our staff have had on the ground experiences in hospitality, non-for-profit, school operations, healthcare, and social services.
